

Erick Schaedler

Full Stack Developer — Node, .NET, Go, React

schaedlererick@gmail.com • LinkedIn (<https://www.linkedin.com/in/erickschaedler>) • Rio Grande do Sul, Brazil

Full stack developer with 4 years of experience building systems for regulated industries — finance, customs and healthcare — in Node, .NET, Go and React. I also ship LLMs to production for cases where the output has to be auditable, not just plausible.

STACK

Backend	Node.js · NestJS · .NET (C#) · Go · Messaging · Queues · Scheduled jobs · Webhooks
Frontend	React · Next.js · TypeScript · TanStack Query · Design Systems
Data	PostgreSQL · Oracle · SQL Server · MongoDB · Redis
Cloud	AWS · Cloudflare · Docker · CI/CD
AI	Anthropic SDK · OpenAI API · Structured output

EXPERIENCE

Aug 2026 – present Full Stack Developer — Mid-level · CWI Software Allocated to Oncologia D'Or, the oncology division of Rede D'Or, Brazil's largest private hospital network — working exclusively on the patient app backend (Node, NestJS, Oracle, Redis) Currently onboarding: ramping up on the patient app domain and the squad's Node/NestJS, Oracle and Redis stack.
Apr 2025 – Aug 2026 Full Stack Developer — Mid-level · CWI Software Embedded in the finance arm of Grupo Herval (credit squad) Unblocked the anti-money-laundering robot, avoiding a multi-million fine and enabling fraud analysis. Rewrote hot routes from 1:1 to N:N per request, cutting round trips on the credit platform. Built a contingency API for outbound communications, centralising providers with automatic failover and webhook tracking.

Oct 2024 – Apr 2025

Full Stack Developer — Mid-level · iData Software

Delivered the Receita Federal product catalogue fully working in production, a required step before import declarations.

Acted as Scrum Master for two developers, running code reviews and stakeholder alignment.

Jan 2023 – Sep 2024

Full Stack Developer — Junior · iData Software

Designed an offline-first CRUD to work around frequent outages of the government API.

Built a maritime tracking system with real-time vessel position, i18n and third-party integrations.

Aug 2022 – Dec 2022

Development Intern · iData Software

Full stack support in .NET and React under senior mentorship: fixes, tests and new features.

EDUCATION

Bachelor's in Information Systems

Unisinos · Expected 2028

University Extension in Golang

Full Cycle · Completed

Technical degree in Information Technology

Instituto Ivoti · Completed
